# **SITUATION SUMMARY**

## **2017 Statewide Winter Storms**

### **Cal OES Coastal Region**

#### **Paul's Slide, State Route 1, Monterey County**

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

#### **Mud Creek Slide, State Route 1, Monterey County**

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

#### **Pfeiffer Bridge Incident, Monterey County**

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.

#### **Mart, Vegetation Fire, San Bernardino, San Bernardino County**

Location: Highway 330 north of Highland Ave, San Bernardino

Jurisdiction: Local DPA, LRA/FRA, City of San Bernardino/San Bernardino National Forest

Start Time: 06/27/17 at 1520 hours

Per ICS-209, Cal OES Southern Duty Officer (SDO), Cal OES Law Duty Officer (LDO), and Cal OES Fire Duty Officer (FDO) as of 06/30/17 at 1645 hours:

- 670 acres grass brush, 95% contained
- Expected Containment: 07/01/17
- Structure threat mitigated
- There are no requests for State assistance
- Decrease in acreage due to accurate mapping
- Type-3 Incident Management Team assigned

#### **Ben, Vegetation Fire, Mariposa County**

Location: Ben Hur Rd. x Silver Bar Rd. Community of Ben Hur

Jurisdiction: State DPA/SRA, Madera-Mariposa-Merced Unit

Start Time: 06/28/17 at 1545 hours

Per ICS-209 and the Cal OES Fire Duty Officer (FDO) as of 06/30/17 at 1754 hours:

- 630 acres grass and oak woodland, 70% contained
- Expected Containment: 07/01/17
- Type-3 Incident Management Team assigned
- Construct and improve line, mop up.

# WEATHER OF CONCERN

## Weather of Concern

- An upper level high pressure system will bring warm temperatures to portions of Southern California Desert areas through the weekend.

## **Active Weather Warnings, Watches and Advisories by County:**

- [http://www.wrh.noaa.gov/sto/brief/www\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php) - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

## **WEATHER SYNOPSIS BY REGION**

### **NORTHERN CALIFORNIA**

High pressure will return and produce dry and warm weather this weekend. Temperatures will be 4-8 degrees above normal and RH will drop to 10-20% in inland areas each afternoon. Wind-prone areas like the delta, along the coast, and east of the Cascade-Sierra crest will see SW-NW gusts reach 15-25 mph. Otherwise, light winds are expected over the weekend.

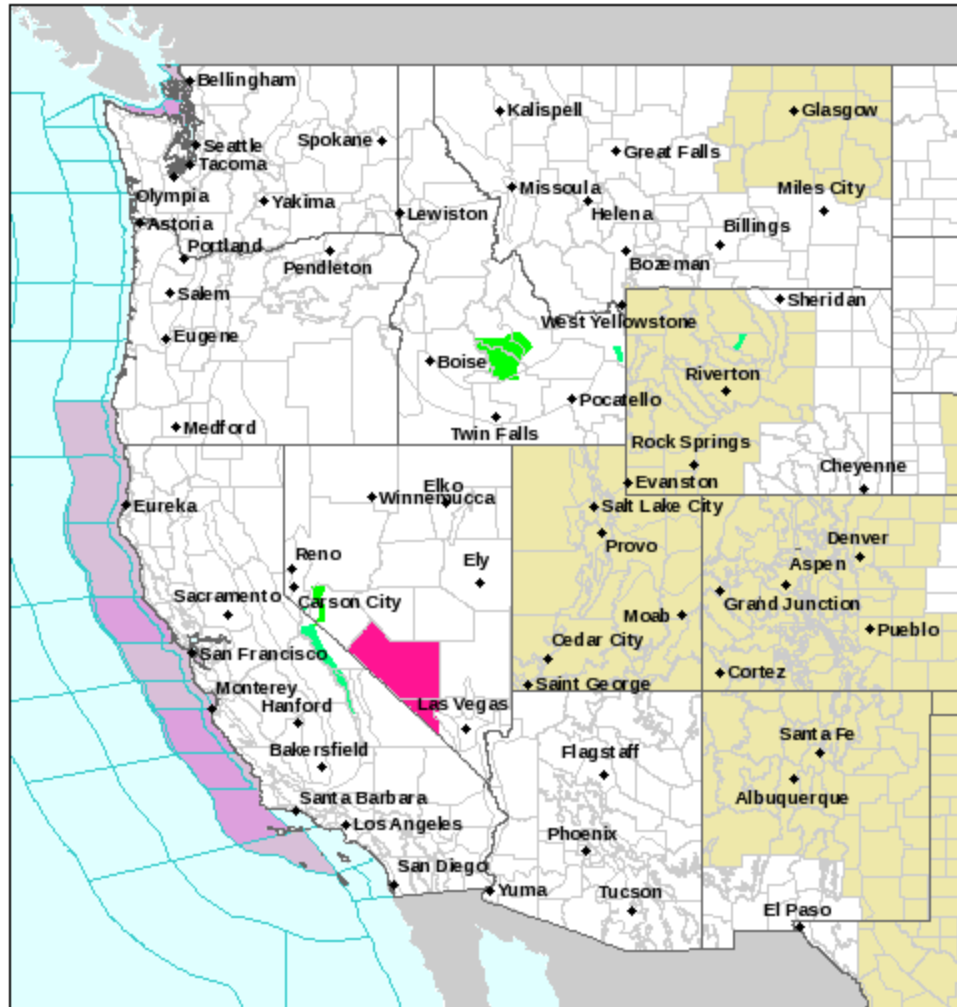

Next week a SW flow pattern will set up as high pressure strengthens over the 4-Corners area and a Pacific low pressure trough sits offshore. At this time a cooling trend looks less likely and a warming trend next week is becoming more likely. The SW flow will produce afternoon wind gusts to 25-35 mph along the coast, through the delta and east of the crest in the usual wind-prone areas. There is a remote chance of afternoon and evening mountain showers and thunderstorms just about each day with this pattern, but right now Wednesday is the day with the highest chances.

### **SOUTHERN CALIFORNIA**

\*\*\*Monsoon may return next week\*\*\*

This weekend into early next week, a weak trough will produce onshore flow and slightly cooler temperatures. Highs this weekend will be in the upper 80s to lower 90s in the valleys, 100 in the San Joaquin Valley and around 108 in the desert. Southwest winds of 15-25 mph with gusts to 35 mph will occur each afternoon in and near the Antelope Valley and Banning Pass. Expect northwest winds of 15-25 mph to continue along the central coast each afternoon throughout the forecast period. Only limited afternoon clearing is likely at the beaches this weekend. Next Monday and Tuesday, temperatures will climb a couple of degrees as strong high pressure begins to build over the Southwest. By Wednesday, the ridge will take a favorable position near the Four Corners to marshal monsoonal moisture into the area. Cumulus development along with isolated afternoon showers and thunderstorms will be possible over the Sierras, desert, and perhaps the mountains from Los Angeles County south and eastward. Temperatures will be much warmer with highs back to 100 in the valleys and lower foothills. RH may climb a bit during the second half of next week. The heat and convection look to last through the weekend of the 8th.

# **Cal OES RECOVERY**

## **2017 Statewide Winter Storms**

### **Presidential Major Disaster Declarations for January/February Winter Storms – FEMA-4301-DR-CA, FEMA-4305-DR-CA, & FEMA-4308-DR-CA**

- Assistance for emergency work and the repair or replacement of disaster-damaged facilities was approved for the following counties in at least one of the major disaster declaration: Alameda, Alpine, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba and the Tule River Tribe in Tulare County.

### **EMAC and Public Assistance - 2017 Winter Storms**

- Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.
- See Cal OES Mission Tasking slide for Mission Tasking information

# Cal OES MISSION TASKING

## Cal OES Missions

- **2017-SOC-36209:** Two Public Assistance Coordinators from the state of New Jersey have been assigned to California through the Emergency Management Assistance Compact (EMAC) system
- **2017-SOC-36293:** Three Public Assistance Coordinators from the state of Colorado have been assigned to California through the EMAC system.
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
- **2017-SOC-34379:** Technical specialist for spillway floor inspections at Oroville Dam, Butte OA – Demobilizing
- **2017-INLAND-36683:** Four CAL FIRE Golf Strike Team (two hand crews each) and one CAL FIRE Agency Rep for flood-fighting activities in Tulare County – Demobilizing 06/27/17
